

EVOLUTION SOCCER BOARDS

PERFORMANCE, APPEARANCE & STYLE

- Combining our new 100% frameless design, with no upright supports, and no bulky overhead rail, this dasher system has a sleek, modern appearance, providing spectator viewing that is superior compared to any other soccer board system on the market.

EASE OF INSTALLATION

- L-channel mounts to threaded rods set in epoxy anchors (holes drilled on site).
Glass sits snugly in white EPDM Gasket.

PLAYER SAFETY

- No heavy steel posts every 20 feet means no 'stiff spots' in the boards.
- Frameless, tempered glass provides surprising flex, and good player impact absorption.
- Athletica Sport Systems tempered glass always meets ANSI specs, and always carries the ANSI seal of approval.

PRICE

- Less expensive than previous *Infinity* and *Seamless Infinity* Soccer Board systems, and built to compete on price.
- Best value of any soccer board system available today.

LOW MAINTENANCE

- Clear anodized finish on mounting channel always looks great, resists scratching, cleans up with warm water, and never deteriorates in appearance.
- No rusting, ever.
- No paint touch-ups, ever.
- Anodized aluminum L-shaped mounting channel always looks new, and clean. Single piece design means nowhere for garbage to gather.

ANODIZED ALUMINUM L-SHAPED MOUNTING CHANNEL

WARRANTY

- Standard 2-year warranty on materials and workmanship (excluding glass).

Frameless, Player-Safe, Tempered Glass Soccer Boards: Join the Evolution.
